

**FORBAND** - permanent formworks made of metal sheet, allow shoring of expansion joints and installation of expansion tape at the same time.

**DHI** - for internal tape D type.

**DH** - for external tape DA type.

**DF** - for internal tape and external with supporting structure made of steel truss.

**FORBAND DHI**

Advantages of formworks DHI and DH:

- fast and easy installation
- alignment of expansion joint
- correct position of PVC tape

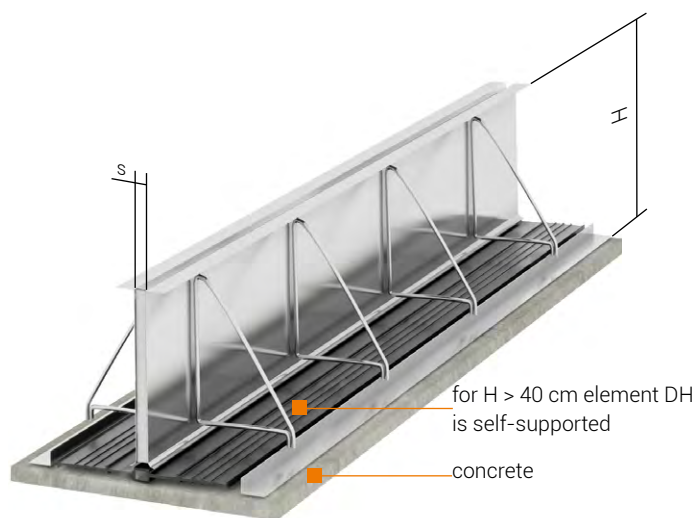

All formworks are self-supporting.

Basic dimensions needed to order:

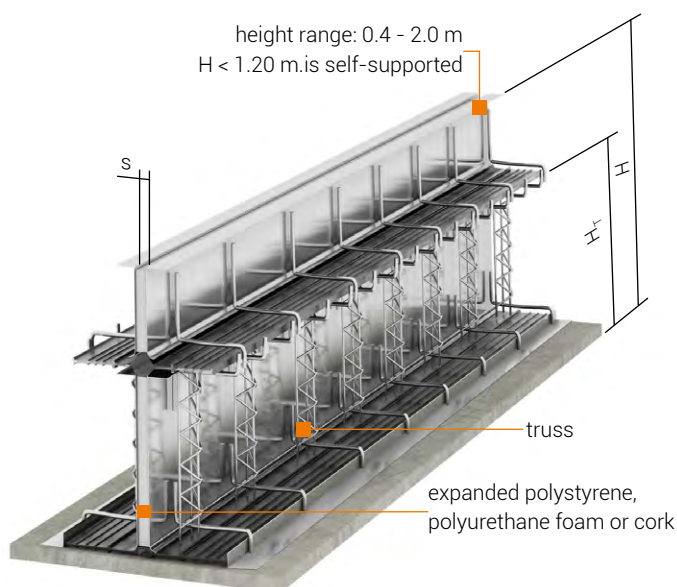

H - height of element [cm]

H<sub>T</sub> - height of tape installation [cm]

s - width of expansion joint [cm]

**FORBAND DH**

**FORBAND DF**

ARTICLE NUMBER	TYPE	TYPE OF PVC TAPE	TYPE OF SUPPORT	LENGTH L [m]
750-...	Forband DHI	D	bar	2.25
751-...	Forband DH	AD	bar	2.25
760-...	Forband DFI	D	truss	2.25
761-...	Forband DFA	AD	truss	2.25
762-...	Forband DF	D and AD	truss	2.25

When ordering, the following dimensions should be given: H, H<sub>T</sub>, s and PVC tape. Elements can be made of mesh diagonal 5 x 7 mm.
