

REBOX - permanent formwork made of metal sheet used for shoring of monolithic ceilings.

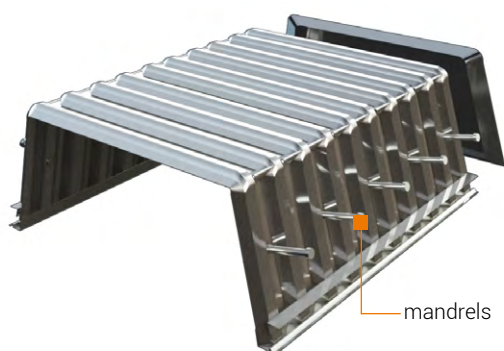

Advantages:

- fast and easy installation
- reduction of monolithic ceiling weight
- light construction.

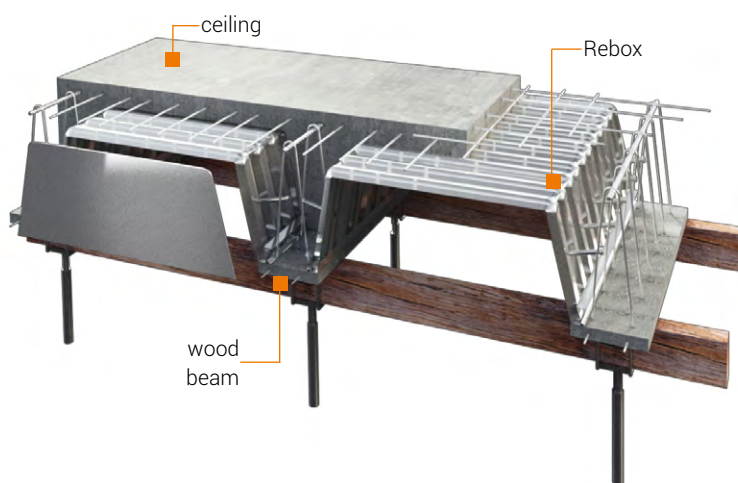

Characteristic:

- trapezoidal profile acc. to Eurocode 2
- height range: $H = 250 - 1000$ mm
- width range: $B = 500 - 1400$ mm
- standard length: $L = 1150$ mm
- zinc sheet, thickness 0.7; 1.0 or 1.25 mm

Recommended overlap of elements: 150 mm
