

**VERBOX** - permanent formwork made of mesh used for installation heat-insulating balcony fasteners. Allows balcony fasteners installation at II step, after earlier made RC slab.

Used for - fasteners installation:

- in cantilevered balconies with slabs applied at the construction site
- in slabs of filigree type, after slabs installation on the construction site.

Verbox can be adapted to balcony fasteners installation available on market.

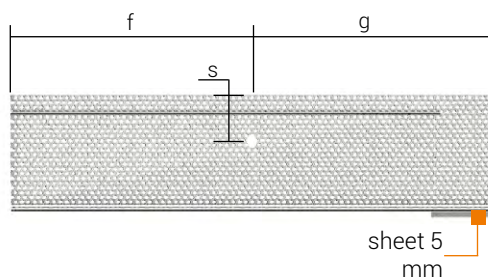

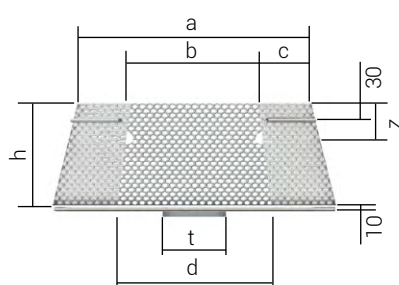

### Advantages:

- easy installation of balcony fasteners
- possibility of installation after made ceiling wet application or after installation of filigree slabs
- shape of "beaded" anchoring an element in ceiling or in filigree
- anchor bolt additionally transferring bending moments

Verbox can be used for **continuity provision of reinforcement** in other RC elements.

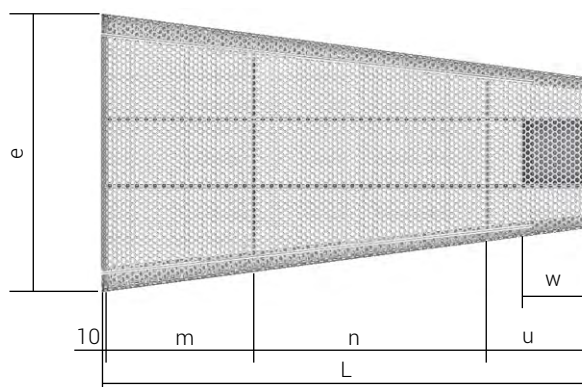

**ATTENTION:** Every element must be individually chosen, designed and produced in relation to type of used balcony fastener.

### STANDARD DIMENSIONING

Presented dimensioning does not consider every possible technical detail to the object.

All parameters, dimensions and shapes must be agreed with the Technical Department of Partec.

DIMENSIONS	CAT. NO. 590...
a =	[mm]
b =	[mm]
c =	[mm]
d =	[mm]
e =	[mm]
f =	[mm]
g =	[mm]
h =	[mm]
m =	[mm]
n =	[mm]
s =	[mm]
u =	[mm]
t =	[mm]
w =	[mm]
